## Promoting Positivity & Cooperation on the Trails

"I always avoid Nordic ski tracks, keep my bike tires clean, and maintain control when riding my bike through the snow." -fat biker

"I know how distracting I can be, so I slow down when I see fellow recreationists and stick to the spaces for motorized users." -sledder

"I know I have more route flexibility, so I don't mind stepping aside for an occasional sled." -BC skier

"Sometimes it's hard to remember my manners when I see snow, but my owner remembers to keep me under control when strangers are around." -dog
